CERTIFICATE OF APPROPRIATION OF WATER

STATE OF UTAH

FICATE NO. 123 B

APPLICATION NO. 1584

PRIORITY NO. 218 B

UTAH LAKE - JORDAN RIVER WATER DIVISION

whereas, It has been made to appear to the satisfaction of the undersigned, State Engineer of the State of Utah, that the appropriation of water on the Utah Lake - Jordan River Water Division, made by Heber City, Assignee of Abram Hatch, has effected in accordance with the application therefor, dated September 10, 1907, and recorded in the office of the State Engineer on 6 in Book P-2 of the record of applications to appropriate water; wherefore, Be it known that I, W. D. Beers, State Engineer of Utah, under and by authority and direction of the provisions of Chapter 108 of the Laws of Utah of 1905, as amended by Chapter the Session Laws of Utah, 1907, on "Water Rights and Irrigation," do hereby certify that the said Heber City of Wasatch County, State of Utah, is entitled to the use of Hundred and Fifty (150) cubic feet of water per second, subject to the following restrictions, to-wit:

The water is diverted from Provo River, in Wasatch County, at a point which bears north 55° west 264 feet distant from the southeast corner of the southwest quarter of Section 31, Township 2 south, Range 5 east, Salt Lake base and meridian. The diverting works consist of two headgates, flumes, open canal, and three pressure pipes. The top width of the canal at water line is 24 feet and the bottom width is 12 feet; the effective depth is 6 feet. The width of the diverting flume is 5.87 feet, and the effective depth is 5 feet. Two of the pressure pipes are 52 inches in diameter, and the other is 20 inches in diameter. These pipes are each 140 feet long. The total length of the diversion channel is 10,475 feet. Four trump wheels--two 30 inches and two 12 inches--operating under a head of 92 feet, are used, generating 905 horse power.

The water is used from January 1 to December 31, inclusive, of each year, and the horse power developed is used for electric lighting and propelling machinery at Heber, Midway, Charleston and Park City. After the water has been so diverted and used it is returned to the natural channel of Provo River at a point which lies 100 feet north and 400 feet from the southwest corner of Section 7, Township 3 south, Range 5 east, Salt Lake base and meridian. The diverting works are to be maintained in such condition as will prevent an unreasonable loss of water.

The date of the appropriation is March 18, 1911, and the priority number of the right is No. 218 B.

In witness whereof, I have hereunto set my hand and affixed the seal of my office this Sixth day of September A. D. 1913.
